October, 2019

Dear Friend of Science, Technology, Engineering, Arts and Mathematics (STEAM),

STEAM affects us in every aspect of our lives. One of the saddest things we hear is “Why do we have to learn science-we’ll never use it?” Our response is to offer “Putting STEAM into STEM” Expo 2019 for the whole family on Tuesday, November 12th, 4:30-7:00 pm, at the Fairmont Elementary School.

We would like to extend this special invitation to you and your organization to participate in this unique event to raise awareness of the varied and exciting options in the real world available to children and young adults through the five areas of STEAM.

To truly engage the families and youth of all ages, we request that you provide some type of hands-on activity such as snap circuits, robotics, critical thinking activities, drones, wind power, scientific observation, engineering craft, etc. Creative and Innovative hands-on activities with take-home learning results will be especially effective. If you have a question about an activity, please do not hesitate to contact Kari Duehlmeyer or the CER office staff.

Exhibitors may set up from 3:45 to 4:30 pm that day and take down exhibits after 6:45 pm. Standard exhibit size will be a 10' x 10' space but can be customized to fit your needs. Tables are available per request. Please complete the enclosed registration form and return to the CER office by November 1st. You can also scan registration form and submit via email to [kduehlmeyer@fairmont.k12.mn.us](mailto:kduehlmeyer@fairmont.k12.mn.us).

This event is sponsored by ISD 2752 Fairmont Elementary School Science Team and Community Education and Recreation(CER). The event will be open to the public at no charge.

Sincerely,

Kari Duehlmeyer
